## Simplify & Improve Your Laboratory Identification

"Unidentified samples and illegible labelling pose a multitude of problems and issues within the laboratory environment..."

Never lose track of your samples

Meet Legislation & Compliance
Follow Good Lab Practice & The Human Tissue Directive

From Freezers to Autoclaves, specially developed laboratory label materials ensure sample integrity even in the most harsh storage environments. Print on demand, even in full colour...

Labels to match existing Vial, Slide & Well Plate sizes
Withstand Liquid Nitrogen, Autoclave, Hot Water Baths
Resistant to solvents such as Xylene, DMSO & Ethanol
Track & trace information using 2D Barcodes
Print direct from LIMS
